

Phase 1 Announcement

Dataset:

After finalizing your pipelines using the initial dataset, an additional training dataset has been uploaded for the TD and TSR models.

Submission Requirements:

Please submit a Google Drive folder named with your **team name** that includes the following:

- **Inference Notebook:** A google colab notebook that runs end-to-end without modification, including the pre-processing and post-processing if exists. All required libraries and dependencies must be included and properly installed within the notebook to ensure it is fully executable.
- **Model Checkpoints:** All saved model weights and final checkpoints used to generate the submitted results.
- **Final Output:** The inference notebook must save the results in the provided JSON format.
- **Sample output of your submission:** [Google Drive](#)
- **Submission Link:** [machathon-submission-portal](#)

Phase 1 submission deadline: 4/3
